

The Institution of Structural Engineers Young
Members Group
Site Visit

DIT GRANGEGORMAN

14th November 2014, 3.00 pm

BAM Building has invited members of the IStructE YMG to the Research Hub Phase 1 building in DIT Grangegorman. This facility is a new Science Research and Incubator Facility for the Dublin Institute of Technology and Associated Works. This site visit will provide useful insight for all young engineers into one of the few large-scale Dublin based construction projects at the moment.

Please note that all attendees must have the required PPE (Hard Hat, Steel-toe Boots, Hi-Vis Vest, Safety Glasses and Safety Gloves).

All are welcome to attend and support the event.
